Everett Animal Shelter to host low-cost cat spays and neuters on February 26

EVERETT, Wash. – The Everett Animal Shelter is hosting Feline Fix, a low-cost spay and neuter event for cats on Sunday, Feb. 26, 2023, at the shelter, located at 333 Smith Island Rd., Everett.

The low-cost cat spays and neuters are available by appointment only to cat owners who meet certain income thresholds and live in Snohomish County. Optional vaccines, worm and flea treatments and microchips will be available at the event.

“We are excited to be hosting this event to help our community,” said Glynis Frederiksen, City of Everett animal services manager. “Spaying and neutering your cats has many benefits including increasing their lifespan as well as lowering their risk of cancer.”

Cat spays (female) are \$40 per cat and neuters (male) are \$40 per cat for eligible pet owners. Optional vaccines will be available for \$10 each, per cat. Worm and flea treatments will be available for \$10 each, per cat. Microchipping will be available for free.

The shelter plans to offer additional spay and neuter events in the future.
